DETAILED ACTION

1. The Examiner would like to note that the present application has been reassigned to a new Examiner.

Response to Arguments

2. Applicant's arguments, see pages 13-18 of Remarks filed 8/22/2006, with respect to claims 1-11, 15-18 and 20-28 have been fully considered and are persuasive. The rejection of those claims has been withdrawn.
3. Applicant's arguments filed 8/22/2006 with respect to claims 12 and 19 have been fully considered but they are not persuasive.
4. With regard to claim 12, and Applicant's assertion that the cited art does not disclose "adjusting the execution period threshold based on one or more transaction execution periods" (Page 19 of Remarks), the Examiner respectfully disagrees. Sharma discloses that the timer values are adjusted based on the amount of state, resulting in larger refresh intervals for larger amounts of state, since transferring the state (transaction execution) takes longer for larger amounts of state (at least Section 3.1).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. **Claims 12-14,19,29 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gray et al. "Transaction Processing: Concepts and Techniques" (prior art submitted by Applicant 1/28/05) and further in view of Sharma et al. "Scalable Timers for Soft State Protocols".**

7. Since claims 12-14,19,29 and 30 have not been amended, and Applicant's arguments are not persuasive (discussed above), the rejection of 12-14,19,29 and 30, presented in the Office action of 4/19/2006 is **MAINTAINED**.

Allowable Subject Matter

8. Claims 1-11,15-18 and 20-28 are allowed.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 2153

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
